

Blended Pickleball Lines On A Tennis Court

A common trend, that is working well, is to maximize the current “real estate” of existing tennis courts. That is usually a “win-win” and has been done for years with tennis and basketball court combinations. By USTA and ITF rules, tennis court lines must be white. Pickleball court lines can be added in a different colour, so that tennis or pickleball can be played on the same court (at different times, of course) and the eye can focus on the applicable set of playing lines. As with the USTA’s kids tennis program known as 10 & under tennis or Quickstart, it is usually recommended to paint the Pickleball lines in the same colour family as the court surface colour. To better explain, if the court colour is blue, apply the Pickleball lines in a shade of blue that is lighter or darker than the surface colour. This makes the lines less distracting to tennis players.

2 pickleball courts on 1 tennis court

4 pickleball courts on 1 tennis court
